CONVOCATION Aug 21, 2013
iPAD for Education - MLC 502A
iPAD can be your perfect learning companion. This class will introduce iPAD as a tool for teaching and learning. The session will explore the basics of using the Apple iPAD. Additionally, participants will examine a variety of iPAD applications that can be used specifically for education.

Canvas Q&A - MLC 534
Instructure/Canvas officially replaced Blackboard as the Alamo Colleges Enterprise Learning Management System. Attend this brief Q & A session to ask your most pressing question. In addition, the speakers will share a few Canvas tips and tricks to enhance your day-to-day teaching experience.

Canvas Attendance - MLC 532
A 30 minute session to briefly introduce attendees to the new Canvas Attendance feature. A feature in Canvas that will allow faculty to quickly track their class attendance. Come and learn how the “Roll Call” attendance tool makes taking attendance and applying grading easy within Canvas.

Intro to Concourse - MLC 526
This session will give faculty an overview of Concourse, train faculty how to use the program features to best suit their needs of developing their syllabi, and address how students will be able to access syllabi.

Classroom of the Future - MLC 524
This session will help you to develop ideas on how classroom design can support teaching and learning. A well designed classroom can facilitate student engagement, collaboration also improve connections between the teachers and students. Attend this informative session to learn more.

Clickers 101 - MLC 502B
Clickers are an interactive technology that enables instructors to pose questions to students and immediately collect and view responses from the entire class. This useful tool can also be used for assessing students through quizzes or tests or even to check attendance. Attend this session to learn the basics of clickers – “An innovative Student Response System”.

Blackboard Collaborate - MLC 532
Blackboard Collaborate is an interactive web conferencing and virtual classroom environment. It is now available at Alamo Colleges. During this informative session, Faculty will learn how to use a variety of application features including multi-person audio, video, screen sharing options, chat and breakout rooms.
